

CHILDCARE TRAINING WORKSHOPS

"Fitness Made Fun" – Playground games for children ages 3 – 12 (2 hour workshop)

Instructor: Leigh Dawson owner/President Sports Fun Enrichment Programs since 1986

Outside playtime should be fun for teachers – not a chore! By learning crazy updated games and activities to entertain children of all ages, you can become the most *favorite* teacher on the playground! This interactive workshop will teach educators how to turn movie characters and super heroes into action packed tag games. A bonus for the kids is that it also includes non-stop physical fitness and fun! As an educator it is essential that you offer a quality outdoor playtime experience to children; one that provides age appropriate movement skills in a safe and structured environment. This "hands on" workshop will teach energetic lesson plans along with ideas on how to gather inexpensive equipment that will fit your schools needs. Organized play can be fun and exciting, but more importantly, it will also create FIT and Healthy children (and adults too). Come prepared to play outside like you haven't done in years!
